EXPERIENCE

Senior UX Designer @Google

2018 - present

- I served as the sole IxD for marketplaces comms (30+ Eng), driving end-to-end UX vision for all features and launches, including bringing Calls, Messaging, and Photos to 13m+ users across Search and Maps (previously supported by 4 other UXDs).
- These multi-surface launches required working xPA, xFN, and alongside legal to facilitate merchant to consumer connections on Google's Billion+ user products.
- Promoted twice in my tenure at Google.

UX Designer Location Labs

2015 - 2018

- I lead the efforts to redesign 2 core company projects for Sprint & Verizon improving the ratings and user experiences of over 2 million customers.
- Responsible for designing suite of family-centric products with a core focus in ethnographic and product research, interaction design, rapid prototyping, data driven design, and strategy initiatives.

Lead QA Engineer, Location Labs

2012 - 2014

- Gained valuable insight into technical process of product development.

EDUCATION

UX Design Immersive, General Assembly

2015

- Pursued an education in UX design to accelerate my learnings while I learned on the side during my QA time at Location Labs

BA Highest Honors, Environmental Studies UC Santa Cruz

2015

- Pursued an education in UX design to accelerate my learnings while I learned on the side during my QA time at Location Labs
